SEVENTEEN INNING TIE AT BOSTON

Darkness Ended Game with Giants, Score 3-3-Holyoke in First Place in State League-World's Record for Slow Fire Shoot is Made at Wakefield, Mass.

Boston, July 28.—New York and Boston played seventeen innings to a 3 to 3 tle today. The game was the longest and the best in many respects of any seen here this season. The contest was terminated by darkness. After the opening inning, when each team scored twice on poor work by the fielders, it hecame a pitching duel between Ames and Mattern, the New York man having just a shade the better of it. Hair raising and lightning infield plays saved the game several times after it had gone to extra innings. Mattern's work with men on the bases was one brilliant feature and a catch by Thomas while lying stretched out flat on the ground was another.

New York went ahead in the fourth inning, when Devlin tripled and scored on Fletcher's single. The home team tied the score in the seventh on a hit and errors by Fletcher and Doyle. There was no further scoringt

It looked like New York's game in the fourteenth, but with men on first and third and none out the next three tatters all hit to the infield. New York had men left on bases every inning after the thirteenth. Boston's best chance of scoring was in the last inning, when Sweeney doubled with one out, but he was left on third when Graham was thrown out on a great stop by Fletcher, and Mattern fanned. All the extra players on the New York Fastled for Wilhelm is the following that the first of the field in our fifteenth inning for loud talk, and severeral Boston players were also sent of

WEEK OPENED STAGNANT.

Business Practically at a Standstill-

Tariff Delay a Factor.

New York, July 26.—To all intents and purposes the stock market was stagnant today. There was a brief period of slight activity after the opening and some stirring towards the close again. In the interval business was practically at a standstill and the ticker recorded only at long intervals. The speculative contingent seemed determined to await the outcome of the United States Steel dividend meeting.

United States Steel dividend meeting, which is not expected to be known until after the market has closed tomorrow. The indications of further delay in the adjustment of the tariff controversy at Washington seemed to have some effect on discouraging any activity in the market. All other considerations were ignored, although some developments regarded as important in their bearing upon the general outlook were included in the day's news. The abundant rains reported in the corn telt were accepted as highly gratifying assurance of carrying that great crop and additional stage towards a profitable maturity, although the month of August, with its critical trials for the corn, is yet to come. More interest centers at present in the corn crop than in any other from the speculative standpoint, so that the helpful weather conditions for it were a beneficial factor for values. The factor did not opened.

standpoint, so that the helpful weather conditions for it were a beneficial factor for values. The factor did not operate on the prices of securities and, in fact, Rock Island, the most important of the corn carriers, suffered from pressure of profit taking sales after a brisk fractional advance at the opening proved so scanty that the light seiling to take advantage of them proved more than sufficient to drive prices downwards. Trade news of steel was good and included an announcement that the advance in prices should be enforced in August instead of at the beginning of the year as at first contemplated. The raising of prices of bars and shapes by the United States Steel corporation is expected to occur at the same time. This is a following of the advance already in force by some of the independent companies. United States Steel falled to benefit from this trade news or from a suggestion which found currency in a limited speculative circle that tomerrow's dividend might be made at the 1 per cent. rate as a compromise between the present rate and the 4 per

at 500 Yards 28 Consecutive Times.

Wakefield, Mass., July 27.—A new world's record of 28 consecutive bullseyes, followed by a narrow miss and 16 more consecutive bullseyes, at slow fire on the 500 yard range in the Shuman re-entry match was the feature of the opening day of the fifth annual meeting of the New England Military Rifle association on the Wakefield range here today. The new record was made by Private George W. Reed of Company A. Sixth regiment, M. V. M., of Wakefield. The best previous record of the range was 20 consecutive bullseyes, made last year by Captain Stuart W. Wise, ordnance department, M. V. M.

One narrow escape from serious injury marked the day when the pistol of Ensign Highburg of the naval academy, Annapolis, exploded at the firing line. The barrel of the pistol blew out, whizzing by the ensign's head, but he was not even scratched.

In the 500 yards, slow fire, Shuman re-entry match, during the afternoon, in addition to the 44 bullseyes out of 45 shots made by Private Reed, Captain N. P. Stiles, Company D. First Maine regiment made a possible 50 points, 10 bullseyes, and Musician George W. Chelsey, Second Connecticut, of New Haven, made 26 consecutive bullseyes. FINANCIAL AND COMMERCIAL.

SHOOTING RECORD.

competition.

From the first it was clear that, Flanagan was in the pink of condition. He asked for a practice throw and heaved the hammer 182 feet.

Flagan has held the world's record since June 25, when he tossed the weight 180 feet at American League park, New York city. McGrath has in the meantime made a record of 131 feet, but under conditions which make it probable that the record will not be allowed to stand.

This left Flanagan's 180 feet as the official figure for him to combat Saturday and his 182 practice hurl showed him dangerous.

He took a couple of throws and then cut loose for the one which made new hammer throwing history. Sailing across the enclosure, he dashed the leaden ball into the earth after a perfect throw, made with three terms.

The throw was measured and the amouncer immediately shouted that a world's record had been smashed.

There is only a slight excuse for disregarding the record, if this fate must be dealt it. There is the alightest down grade from left to right field on the baseball ground where tha throw was made, but it does not seem possible that this will be sufficient for the record to be thrown away. The city engineer's effice will probably survey the grade and find its exact amount and place their finding before the A. A. U. Sporting men are unanimous in believing that the record will be accepted.

DONLIN SAYS LITTLE. Can't Tell Just When He Will Go to Philadelphia.

New York, July 26.—Mike Donlin, the former New York National league player, reached this city today from Point Pleasant, N. J. Donlon had little to say about the deal whereby he is to captain and manage the Philadelphia Nationals.

"I support to go to Philadelphia had

Ex-Champion Clothier Defeats Little. Boston, July 25.—Former National Champion William J. Clothier of Philadelphia continued the strong showing he has been making in lawn tennis this year by defeating the veteran New York player, R. D. Little, in the upper half of the semi-finals for the Longwood cup at the Longwood Cricket club today. The New Yorker played vigorously, however, and four sets were necessary to decide the match, which went to the Philadelphian by the score of 4-6, 6-8, 7-5, 6-2. Tomorrow Clothier will meet R. H. Palmer of New York in the finals, and it is generally expected that National Champion William A. Larned, who has one leg, on the new cup, will defend the pion William A. Larned, who has one leg, on the new cup, will defend the trophy on Wednesday. Larned has been practicing for several days past with former Champions Beals C. Wright and Malcolm D. Prince Ahmed Won in 1.38 4-5. Empire City, July 26.—The races at Empire City today were run over a fast track and good time was made in last track and good time was made in all the events. Prince Ahmed, car-rying 118 pounds, won the feature event at one mile in the fast time of 1.38 4-5. Rose Queen made the pace to the last sixteenth pole where Prince Ahmed closed strong and just won by a nose.
